Awning Guard Installation Instructions

*****PLEASE NOTE: This is a two person installation, please get a helper, do not try alone.*****

1.

Remove any loose or de-laminated pieces of awning.

Clean awning with a non-residue cleaner and rinse with clean water and let dry.

2.

Measure awning Fabric.

3.

Unroll Awning Guard

4.

Measure Awning Guard and cut to length.

5.

Lay cut ,Awning Guard along roof of RV.

6.

Align Awning Guard with the seam of the awning fabric and where it attaches to the RV. Have a helper hold the Awning Guard up along the seam (this will keep it straight).

7.

Peel back 1" of clear liner 8" in length. (be careful not to let the gray adhesive material come in contact with its self) it will be very hard to get apart.

Start at one end of awning and press sticky side to top of awning. Remove clear liner 8" at a time and press along RV-awning seam.

Repeat until Awning Guard is attached to the entire length of the awning. You may get some air bubbles, smooth them out, away from the RV.

9.

Once you have installed the Awning Guard you may have some air bubbles. (this is normal).

Go over entire Awning Guard with a dry rag and smooth out any air bubbles the best you can. If you still have some, pierce the top of the air bubble with a razor blade to remove air.
(this will not void warranty or damage you protector)

8.

Now with the Awning Guard in place along the RV-Awning seam.

Grab the peeled away portion of the clear liner and pull at a 45 deg. angle towards the center of the RV

Slowly pull the clear liner 1"-2" at a time and smooth out the Awning Guard along the section being removed from the top to bottom. (TAKE YOUR TIME OR YOU WILL GET AIR BUBBLES) the slower you do this step the smoother the Awning Guard application will look.

10.

Enjoy your Awning Guard knowing that, you have just prolonged the life of your RV awning for many years to come. Your Awning Guard can be cleaned with any household window cleaner or any other non-abrasive cleaner.
