

Since its introduction,

### **AUTO-LEVEL**

has quickly become the premium choice in leveling systems. The automatic, one touch operation levels your vehicle in less than two minutes.

*This is the same quality leveling system used by top manufacturers in the RV industry and is now available in installation friendly kits.*

### **SL 11, 14 & 15 Series**

Designed for use on Class C and some Class A Motorhomes.

### **SL 16, 18 & 24 Series**

The taller design offers more stroke and lifting capacity for larger diesel motorhomes and fifth wheels.

### **SYSTEM ADVANTAGES**

- One pump operates all legs and can be mounted virtually anywhere
- One touch, push button Auto-Level operation
- Field adjustable null ensures leveling to operator established level position
- Audible and visual prompts notify user when leveling is in progress and complete
- Audible and visual prompts warn of "drive-off" situations on motorized vehicles
- Stow legs quickly and easily with auto All Retract
- Variety of manual override options are available
- 12 or 24 volt systems
- Level accuracy to within 1/2 degree

Equalizer Systems is a manufacturer of electric and hydraulic power lifting and leveling systems. We are dedicated to customer satisfaction in the selection, installation and service of our systems. Call Equalizer Systems at **1-800-846-9659** for assistance determining which system is right for your needs.
