## 2009-10 Pontiac Vibe 2009-11 Toyota Matrix Installation Instructions

**Serial Number**

**Please read BOTH these Installation Instructions and the General Towing Instructions before attempting to install or operate this equipment.**

1. Blue Ox® towing products and accessories are intended to be installed by Blue Ox® Dealers who are familiar with our products and have the equipment and knowledge to do “fit work.” When necessary, Blue Ox® Dealers can be found at [www.blueox.com](http://www.blueox.com) or by contacting our Customer Care Department at (402) 385-3051.
2. Many Blue Ox® Baseplates are designed to use existing holes and hardware to mount the baseplate to the towed vehicle. Even though bolts are there, do not assume they are adequate for baseplate mounting. Always use hardware supplied in the hardware kit or existing hardware specified in the Baseplate Towing Installation Instructions.

## Important:

Use only genuine factory replacement parts on your baseplate. Do **NOT** substitute homemade or non-typical parts. If a bolt is lost or in need of replacement, for your safety and the preservation of your baseplate, be sure to use a replacement bolt of the same grade (In most cases it will be Grade 5, please reference the parts list above). Replacement parts may be ordered through your nearest Blue Ox® Dealer or Distributor. Failing to follow and/or altering these installation instructions in either installation or required equipment will void the manufacturer's warranty. Towing behind a non-motorized vehicle will void the warranty.

### **Installation Instructions**

**Vehicle Weight:** Motorhome mount tow bars are recommended for use with this baseplate. Due to the design of the removable tabs, the RangeFinderII, Adventurer, Acclaim and Ambassador tow bars can not be used. Adapters, except the BX8833 and BX88151, can not be used with this baseplate.

**Installation Notes:** The fascia and aluminum bumper are removed and reinstalled during installation of the baseplate. Drilling is required. Trimming of the fascia is required.

The dimensional variations between otherwise identical vehicles can be considerable. While the baseplate was designed for easy installation, it may be necessary to tailor the baseplate slightly to compensate for auto manufacturer's tolerances. These minor adjustments may include filing a hole slightly, bending electrical rods or bending end plates.

The BX8869 Bulb and Socket Wiring Kit is recommended for this vehicle.

### **Installation Instructions:**

1. Remove push pins (white arrow) from the top corner edge of the fascia. Using the Phillips screw driver, remove the Phillips screw (gray arrow), do this to both sides and set aside for later reinstallation.

2. Remove push pin from top edge of fascia just below hood latch and set aside for reinstallation later.

Handling of some cosmetic parts when installing this product may require the use of protective covers, rags, specialty tools, etc. to prevent damage.

### **Installation Instructions**

3. Just forward the front tire on the upper corner of the fascia and inside the wheel well, turn the screw 90° to remove it (white arrow). Using a Phillips screw driver, remove the upper screw (gray arrow). Do this on both sides and set aside for reinstallation later reinstallation.

4. Just forward of the front tire underneath the bumper, using a 10MM socket, remove the three metric bolts. Do this on both sides and set aside bolts for later reinstallation.

5. Behind the fascia on the bottom of the bumper, are two push pins to remove from the fascia's tabs. Remove with a flat screw driver. Pull the fascia forward on both sides and set aside carefully for later reinstallation.
7. Using a 14MM socket, remove the two bolts on each side of the bumper and take the bumper off. Set aside for later reinstallation.

6. On the driver's side only, using a flat screw driver release the tabs from the top of the bumper and tie the wire loom up in the open area during baseplate installation.

### **Installation Instructions**

8. Drill a hole in the frame rail under but connected with the existing hole using the 1 1/4" hole saw on both sides. This hole will allow the installer to insert the nut plates inside of the frame rail.

9. Slide the baseplate up between the frame rails and align with the existing hole on each side.

**When using power drills be aware of the dangers of torque and drill bit length.**

10. Insert 3/8-16 x 1 1/4" hex bolts with 3/8" lock washers attached to 3/8-16 nut plates with 14" wire inserted into the frame rail on both sides to hold the baseplate in place.

11. Using the baseplate as a template, drill both holes in the under side of the frame rail with a 13/32" drill bit. Do this on both sides.

**BE SURE TO USE LOCTITE® RED ON ALL BOLTS BEFORE TIGHTENING. TIGHTEN ALL BOLTS ACCORDING TO THE TORQUE CHART ON THE FRONT PAGE OF THESE INSTRUCTIONS OR ON PAGE 3 OF THE BASEPLATE TOWING GENERAL INSTRUCTIONS.**

12. Insert 3/8-16 x 1 1/4" hex bolts and 3/8" lock washers with 3/8-16 nut plates with 14" wire inserted into the frame rail. Use loctite on all the bolts and tighten. Do this on both sides and the bolts inserted previously.

**Installation Instructions**

13. Move the bracket up onto the baseplate and reattach.

14. Reinstall the bumper. Be sure to reattach the wire loom to the top of the bumper.

15. Attach baseplate safety cables as in above photos or as close to as possible. If you are unable to place safety cables in this location, position the cables around a solid piece of the frame.

Be sure that **ALL** electrical connections are plugged in properly and functioning **BEFORE** installing the fascia.

**DEALER or INSTALLER:**  
Be certain the user receives the instruction sheets for their products.

16. Hold the fascia as close to its original position as possible, mark and trim the grill with a utility knife to allow the baseplate receivers to come through (white arrows). Reinstall the fascia. The two license plate screws on the top may have to be raised up about 1/2" (gray arrows).

Install the tow bar and safety cables according to the instructions provided in their packages. When demonstrating this to the customer, be sure to include all the contents and packages.

Do **NOT** substitute other devices if the tow bar pins and clips are misplaced.
