

or, we also manufacture an Awning LED Light Strip Holder. Once you install this holder, it never needs to be removed from the awning. So you will not need to take it and the led light strip, in and out of the awning. To purchase this item you can purchase it on line through our website at www.ucampproducts.com.

INSTALLATION OF LED LIGHT STRIP ON THE SIDE OF THE RV

Installation surface must be clean, dry, and smooth. Use a cleaner that is free of oil residue. Remove protective covering over the double sided tape on the back of the light strip, then press firmly into place on the clean and dry surface, you have prepared, on the side of the RV.

Periodically check all of the parts to your light set for over-heating. If any part seems to be warmer then you believe it should be, replace it. We make available to all of our customers, replacement parts. If after warranty, we will replace parts for cost, no matter how long you own your lights. Best to be safe! For replacement parts call our office at 618-228-5080 and we will walk you through the replacement part program. Keep your receipt and the cardboard label that is packaged with the lighting to take advantage of this program.

WARNINGS!

Although we have taken every precaution, anything that requires electricity could be a potential hazard, so please, **NEVER LEAVE LIGHTS ON UNATTENDED.** That includes while you are sleeping. Also, do not allow anyone to stare straight into the lights at a close distance, I would imagine, it could be harmful to the eyesight. I know what you are thinking, who would do that? I have had children do this at RV shows, so please watch your children with the lights, or anyone without a lot of life experience, or just anyone without much common sense. A little humor there.

Thank you for purchasing our new product.

90 day full warranty on all parts – all warranty issues must be accompanied by a dated receipt.

Products That Work, While You Camp
