

# General Decorative Light Installation Instructions

(Part #'s: Varies)

## PARTS/TOOLS NEEDED:

			
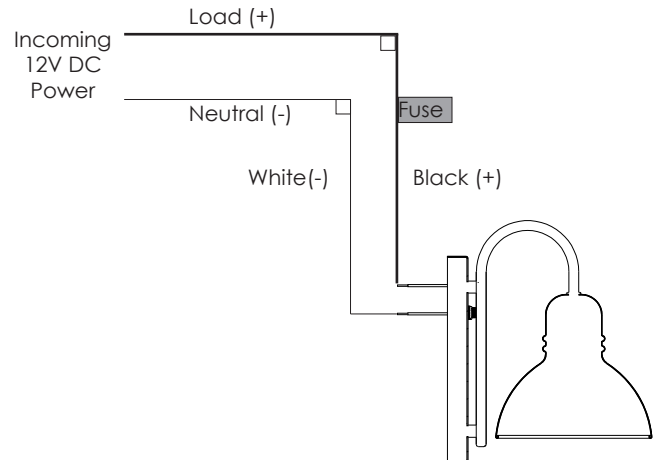

Decorative Light (styles vary)	Mounting Screws	Power Drill (Not Provided)	Wire Connectors (Not Provided)

## INSTALLATION CONSIDERATIONS

- Disconnect power before installing, adding or changing any component.
- To avoid a hazard to children, account for all parts and destroy all packing materials.
- It is recommended that fuse protection be added to the positive (+) input.
- All electrical connections should be made inside an approved junction box.
- Ensure there is adequate support behind your light whether in the ceiling or on the wall before installing. Failure to install into proper backing will void the warranty.

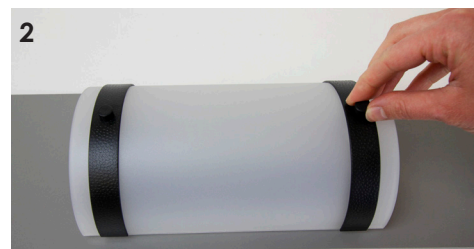

### 1. Mark the screw holes and drill pilot holes.

Wire the light based on the wiring diagram. Do not allow the light to hang from the wires, this could damage the light and void the warranty.

### 2. Attach light using the provided screws.

*Note, lights may be installed using a mounting bracket<sup>1</sup> and a set screw on the side or may be installed directly from the front<sup>2</sup>.*
