

Dual Portable Wireless Speakers

User's Guide for Model ISBW2116 v1527-01

FCC WARNINGS

Warning: Changes or modifications to this unit not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.
 NOTE: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses, and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

ADDITIONAL WARNINGS

- **WARNING:** Changes or modifications to this unit not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.
- **WARNING:** Shock hazard - Do Not Open.
- Caution and marking information is located at the rear or bottom of the apparatus.
- Mains plug is used as disconnect device and it should remain readily operable during intended use. In order to disconnect the apparatus from the mains completely, the mains plug should be disconnected from the mains socket outlet completely.
- **WARNING:** Fire/explosion hazard - Do not overcharge the battery. When charging the battery, do not leave unattended for long periods of time.
- Battery shall not be exposed to excessive heat such as sunshine, fire or the like.
- Lithium batteries, like all rechargeable batteries, are recyclable and should be recycled or disposed of according to state and local guidelines. They should never be disposed of in normal household waste, and they should never be incinerated, as they might explode. Contact your local government for disposal or recycling practices in your area.
- **WARNING:** This product may contain chemicals known to the State of California to cause birth defects, or other reproductive harm (California Prop 65). Wash hands after handling.
- This product meets and complies with all Federal regulations.

Overview

Features

- Supports Bluetooth
- Automatic device reconnect
- Bluetooth Wireless range: 33 ft to main speaker/15 ft between speakers
- IPX4 Water Resistance
- Hands free Speakerphone
- Aux In 3.5 mm audio input
- Built in rechargeable lithium ion battery
- Battery life: approx. 5 hrs @50% volume

Includes

- 2 Micro-USB to USB cable
- 3.5mm audio cable

Battery LED Indicators (Red/Yellow)

Speaker Status	Indicator Light
Low Battery	Flashing Red/Yellow OFF
Charging Battery	Solid Red/Yellow OFF
Battery Fully Charged	Red OFF

Speakers Pairing	Flashing Yellow
Speakers Paired	Solid Yellow

Function LED Indicators (Blue/Green)

Speaker Status	Indicator Light
Aux In	Solid Green
Pairing Bluetooth	Quick Flashing Blue
Reconnecting Bluetooth	Slow Flashing Blue
Bluetooth Paired	Solid Blue

Water Resistance

This unit has a water resistance rating of IPX4. This rating is suitable for indoor and outdoor use in the presence of incidental or light exposure to splashing water, rain, or snow. Water splashing against the enclosure from any angle should have no harmful effects. It is not recommended to submerge this speaker in water for any amount of time.

IMPORTANT: To ensure your speaker is prepared for use in a wet environment, disconnect and remove any power cables, and tightly close the water cap on the rear of the unit. If the water cap is not properly closed, water resistance will be compromised and could result in damage to the speaker or personal injury.

Power & Charging

DC Power Input

Requires Micro-USB charging cable (included).

Each speaker must be charged independently. Battery life when not in use is roughly 6 months. The battery must then be fully recharged. Charge each speaker fully before use.

1. Using a Micro-USB cable (included), connect the larger **USB plug** to the **USB port** of a powered on computer or USB power adaptor (not included). The speaker should now charge.

Bluetooth

Pairing the Speakers

The speakers should be paired **BEFORE** pairing to a Bluetooth device. This should only need to be done upon first use. Make sure the speakers are fully charged before beginning the pairing process.

1. Power on the speakers by sliding the power switch to the **ON** position on both units.
2. The **Bluetooth Indicator** and **Speaker Connection Indicator** will flash slowly in unison. *If the Speaker Connection Indicator is not flashing, but is solid yellow on both speakers, your speakers are already paired. Skip to the Pairing a Bluetooth Device section.*
3. Press the **Connect Speakers button** on both speakers simultaneously. The **Speaker Connection Indicators** will flash quickly.
4. Wait until both **Speaker Connection Indicators** are solid yellow. This indicates that the speakers have successfully paired.
5. For all future uses, please turn on both speakers and wait for them to connect. If any pairing issues should occur, repeat the above steps.
Note: Pairing speakers does not work in Aux In mode..

Pairing to a Bluetooth Device

Make sure you have first followed the instructions for *Pairing the Speakers*. When pairing, the device should remain within 3 feet of the speakers.

1. Press the **Pair button** on **ONLY ONE** of the speakers (this will be the left speaker channel). *The pair indicator will begin flashing quickly.*
2. Using the controls on your Bluetooth device, select **ISBW2116** in your Bluetooth settings.
3. If your device requests a password, enter the default password **0000**.
4. Refer to the user's manual for your specific device for instructions on pairing and connecting Bluetooth devices.
5. When successfully paired, the pairing indicator will stop flashing and will remain solid.
6. After initial pairing, the unit will stay paired unless unpaired manually by the user or erased due to a reset of the device.

If your device should become unpaired for any reason, repeat the above steps. If any pairing issues should occur, un-pair the unit on your Bluetooth device and repeat the above steps.

If two speakers with the ISBW2116 name appear on the pairing list of your device, erase one from your Bluetooth device and repeat the above steps.

Aux In

Using Aux In

Requires a 3.5mm audio cable (included).

Note: Aux In will automatically disable wireless play modes.

1. Connect a 3.5mm audio cable to the **Aux In Input** on the unit and the **audio output** on an audio device. *The Pairing/Aux In Indicator will display a solid green light.*
2. Use the controls on the connected device to select audio. Use the controls on the device or the speaker to play, pause, skip, and adjust the volume.
