RV Gutter Extensions

Keeps your RV looking NEW

- Easy to install
- Reduces dirt and black streaks
- No tools required
- Extends out over 2 inches

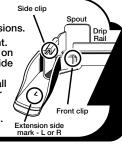

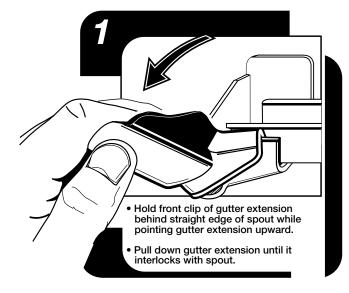

Before you start • Identify left and right hand gutter extensions.

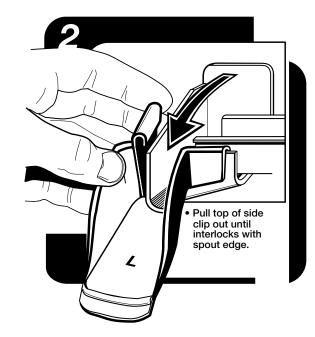

Familiarize yourself with diagram at right.
 Left extensions (marked L) – install on driver's side front and passenger side rear gutters.
 Bight extensions (marked R) – install

 Right extensions (marked R) – install on driver's side rear and passenger side front gutters.

• Drip rail and rain spout are not included.
